By rust and corrosion, by mold and dry rot, by silence and avoidance, by seepage and spillage, by defect and by dung, by flab and flatulence, by ebb and by shoal, by guttering candle and busheled lamp, by halves and by quarters, by loss and forfeit, by stutter and by stammer, by rent sails and uncaulked hulls, by luke-warm and half-bright, by stench and stagnation, by dead roaches and live flies, by slow waste and annual decline, by palsy and cataract, by drooling coma and abandoned death...BY WHATEVER MEANS NECESSARY

I) Toi la plus digne de confiance parmi les filles d'Ève, joyau des neiges, j'aurais préféré voir tes yeux que toutes les cités du monde. Si les mortels pouvaient t'aider maintenant, je ferais honte à Archimède et déplacerais ce qu'aucun levier ne pourrait. Puisse Celui qui règne sur tout daigner nous donner, dans l'autre vie, la grâce de comprendre pourquoi certains ont reçu la lumière alors que d'autres ont été laissés aux ténèbres.

II) Ni kan förvänta Er att van Riebeeck kastar ankar i Tafelbaai två månader efter pingst under ungefär likadana förhållanden som de som rådde år 1652. Skörbjugg bland manskapet kan inte undvikas. Detta är ett av de svåra företag som är värt vad det kostar, t.o.m. om kostnaderna är skyhöga. Kapstaden finns idag endast på grund av att män med insikt ursprungligen var villiga att investera i misslyckanden.

III) **Alberich is again working under the River. The Pigs** remain predictably inert, wallowing in their inane but sporadically amusing **radicalisme petit-bourgeois**. A heightened level of circumspection is nonetheless required as **The Pelagian devils** have definitely deciphered 5/1/2000 as per the (enumerated) **Hausdorff spaces**. Whether they have encompassed the **Third Level** is uncertain but Mistah Kurtz and Morphy must pragmatically be presumed **im Feindesland**. Whether they have fallen within the aegis of the **Lutine Bell** is currently unknown and is unlikely to be ascertained prior to **Trinity Sunday**.

It must be concomitantly assumed that **The Hirelings** will shortly infer our current mode of **subliminal channel transmission** (*inter alia*, Desmedt *et al.*, *CRYPTO '87*, Proceedings, pp. 21-39) is conducted via garden-variety search engines, especially those where they least expect to find us. As in all cases of this **genre**, apply **Philippians 3:13** to post--10/11/2000 transmissions containing **second level anomalies**, as the last (non-interactive) **datablock** allegedly received from Mistah Kurtz and/or Morphy cannot be conclusively graphed as a **Hamiltonian cycle** (*cf.*, Goldreich & Wigderson, *CRYPTO '86*, Proceedings, pp. 171-185). The foregoing would not have occurred if **The Revisionists** had not suborned the second-order logic for sequential generation [0 → G(3) → Q → 1]. **THE ORPHANAGE**, therefore, has specified that the **Summer Tour Itinerary** in general and the **room reservations** at the **Hotel California** in particular, be extracted only as **Blum Integers** from 5/1/2001, **sub specie** 4/27/88. **DO NOT RETRANSMIT** nor seek **exteroceptive correlation**. The task, having become temporally exigent, must proceed under the (19-round) metric of: "Sol, contra Gabaon **ne movearis** et luna contra vallem Aialon." Determine the chronological coordinates by the numerical occurrences of the **essive case** in the afore-cited chapter, congruent with {{59.4235 N., 24.7203 E.}} and then execute the limited subroutine as per the specifications of 9/20/2000 [*cf.*, ANSI X9.49]. As for the ongoing somatic experiment, it would now be wiser for **The Asylum Choir** to follow standard pharmaceutical regimens (*e.g.*, **ab initio**: cyclosporine microemulsion 125 mg. b.i.d., mycophenolate mofetil 1500 mg. b.i.d. & prednisone 20 mg./d.; if the subject survives and becomes hemodynamically stable and asymptomatic, do **not** be misled by a reduction in the (donated) **QRS voltage**--rely on the (follow-up) endomyocardial biopsy. Despite the attendant difficulties, the celebration of the 471st Anniversary of the **Confessio Augustana** will be unusually festive. **The Loyal Order of Un-reconstructed Freaks** will treat us, *in modo loquendi*, to **porcine extispicy**, in light of which **de Moivre** has suggested that one course consist of **boudin anti-lais en feuille de chêne et pommes de terres en robe des champs**. The projected dividend from the Breitenfeld Battle Bond has been subject to the unsettled market conditions, but should asymptotically approach F_{382447} . **The Little Orphan Children** have been scrawling "on subways walls and tenement halls": "Αργυρέαίς λόγχαισι μάχε καὶ πάντα κρατήσεις." }+} "ET AD HAEC QUIS TAM IDONEAUS?" *Orate pro nobis.*
